ADVERTISEMENT.

The following Synopsis of the Manuscript Classed Catalogue of the Medical Works contained in the Library of the Royal College of Surgeons in London is published with a view of making it generally known that a Catalogue of the kind is in existence, and lies open for consultation to Members of the College and Visitors to the Library. The principle of arrangement pursued, has been to distribute the Works, according to the subject of which they treat, into appropriate classes or heads, and to arrange the several Works comprised under each particular class or head in chronological order, so as to form a digest of Medical Literature.

An Alphabetical List of the subjects is appended to the Manuscript Catalogue so as to render it of easy reference.
